

DETAILS OF THE EMDR RETICLE (ENHANCED MILDOT RANGING)

ADVANTAGES OF THE EMDR RETICLE

- First focal plane glass-etched reticle
- Open-center subtension for easy target acquisition
- 15-percent narrower center crosshairs for reduced target subtension
- Enhanced Mil-Dot design delivers refined ranging capabilities
- Contains Mil-Dots and hash marks to also estimate fractions of mils

TOUGH SHOTS. ROUGH PLACES.™
